## WORK OF WILD WIND IN COLORADO TOWNS

Freight Cars Lifted Off of Tracks, Houses Overturned and Other Damage Dona

DENVER, March 3.-Belated reports of damage by wind yesterday and last night are being received from southern Colorado and northwest Texas.

In the Texas Panhandle a hurricane blew freight cars off the track and damaged ranch buildings and fences.

A Colorado & Southern passenger train was brought to a standstill, being unable to proceed against the wind. At Weston, Colo., near Trinidad, large lumber stacks were demolished and the

contents strewn over the country. At Florence, Colo., a number of oil derricas were prostrated. The Union Oil company was the heaviest loser. The top of one of its huge oil tanks was blown off and sand and dirt mixed with the oil, rendering it unfit for use. The tallest stack on its new refinery and the boiler-house connected with the refinery

Several buildings in the town of Flor-Several buildings in the town of Flor-ence were badly damaged. Telephone poles from Colorado Springs to the southern line were blown over, incapac-itating the long-distance service. Con-siderable other damage was done in other places along the eastern slope of the mountains. No loss of life or serious injury to persons has been reported.

# FLOODS AND ICE

Toledo Bottled Up Between Two Mountain Gorges, and the Monongahela Is on Rampage.

TOLEDO, March 1.-Toledo is tonight bottled up between two great ice gorges. The water in the Maumee river, in the heart of the city, is seven feet above main level tonight and is stationary.

At the mouth of the river there is an toe gorge which, it is believed, extends for miles and backed by ice three feet thick on Lake Erie. This is holding the water back in the city. There is yet a greater volume of water above the city, which is being held by a series of gorges.

One is at Cottonwood island and another at Grand Rapids. The latter extended in both directions from that place as far as water there is 26 feet above normal,

and the entire town is inundated. The wagon bridge across the river at Grand Rapids went out last night and railroad officials here fear for the three railroad

pridices.

PITTSBURG, March 2.—Swollen by the downpour of a night the Monongahela and Allegheny rivers started to rise about 9 o clock this morning and at midnight had risen ten feet and was still rising at the rate of .3 of a foot an hour. The damage will be heavy. A 28-foot stage is predicted at noon tomorrow.

The Westinghouse Electric and Manufacturing company of East Pittsburg and the Westinghouse Airbrake company at Wilmerding were the greatest sufferers. The two great plants were forced to suspend operations, throwing more than 90% skilled men out of employment. Neither plant will likely resume before Friday morning and probably not before Monday It is estimated that the loss to merchants here will reach at least \$100,000.

### **DUNKARD COLONIES FOR** NORTHWESTERN TEXAS

CHICAGO, March 1-The Record-Herald today says:

Arrangements have been made by the Santa Fe railway for the establishment of two large Dunkard colonies in northern Texas and in the Pecos valley. Between 300 and 500 families are expected to locate in the colonies.

Through Philip Swihart of Tippe-cance, Ind., the Dunkards of many States have agreed to sell their homes and recolonize on a large scale in the sections named. Contracts have been signed by the Dunkard commit-tee and the land agents of the Santa Fe whereby the railway has reserved 15,000 acres of land in the Pecos valley be-tween Carlebad and Roswell, and 51,000 acres in northern Texas, between Hereford and Bovina. On the latter will be colonized the Dunkards who desire to engage in cattle raising mainly, and on the former tract those who desire to engage in fruit raising.

## Humors

Come to the surface in the spring as in no other season. It's a pity they don't run themselves all off that way; but in spite of pimples and other cruptions, they mostly remain in the system. That's bad.

Hood's Sarsaparilia removes them and cures all the painful and disfiguring troubles they cause. Nothing else cleaness the system and clears the complexion like Hood's.

#### SEALSKIN CLOAKS WILL BE HIGHER

VICTORIA B. C. March 1-Leading scaling men interviewed here as to what effect Congressman Robinson's (Ind.) bill to prohibit the killing of seals on the Pribyloff islands would have on Canadian scaling interests, say that they don't

dim scaling interests, say that they don't boileve Congress will allow such a bill to paiss, but it it did, it would improve the price of skins sold in London.

The scalers here are much concerned about the proposed mensure, as they say that it can only have the effect of destroying a monopoly enloyed by an American company and ultimately benefit the Victoria scalers. They are aware that the Pribyloff Islands company is doing well every season, and if prohibited from killing there, would probably take to pelagic scaling like the Canadians.

## SENATORS DISCUSS NEEDS OF MORE POWERFUL NAVY

United States, According to Senator Hale, Now Ranks Third as a Naval Power, While Japan Ranks as Next to the Smallest Power.

members of that committee.

Mr. Stephens (Tex.), the ranking minority member of the Committee on Indian Affairs, held the Secretary of the

Interior responsible for delay in action on applications from the Indians of In-dian Territory for enrolling, and criti-cised his rulings on that connection. He

said the applications had been held up by order of the Secretary.

The House at 5 p. m. adjourned until

THE DRIFT OF POLITICS.

Mayor Morris has discovered that he

The thing of holding up the payrolls of the men who earn their money from the city by the sweat of their face is a matter that finds no indersement except from those who hope to profit in some manner from it. And it is a game that can be turned on the originators of it in a most interesting way at the proper hour.

The Descret News says it has never been

the has been making a monkey of the

WASHINGTON, March 3 .- For al- , evidence of wrong-doing on the part of most four hours today the Senate, while technically engaged on the naval appropriation bill, discussed a wide range of subjects, including the policy of the United States in the Philippine Islands and the Russo-Japanese war.

The principal participants were Mesers, Hale, Bacon, Lodge, Dopew, Patterson, Perkins and Money. Mr. Hale, in charge of the naval bill, criticised the plans of the naval board as tending to an establishment beyond the needs of the country.

Mr. Lodge, Mr. Depew and Mr. Perkins defended the naval officers. Mr. Lodge declared a large navy an essential to the maintenance of peace. Mr Money said he did not consider the total appropriation, \$96,000,000 carried by the bill, as excessive under our present policy in the Orient. He, however, criticised that policy, as did other Democratic speakers.

one of becoming Brivery, and the power is likely to be overworked.

The frankness of the responses President Smith made to the inquiries concerning his marital relations was stunning to the people of Sait Lake City, and it is said that many of the Mormons think the President uncovered a great number of things that were really damaging to Senator Smoot's cause. The Deseret News praises the president for his straightforwardness, but it prints recoveringly a statement that the testimony was given more fully than would have been necessary. The confession of the head of the church that he has five wives and that he lives with them as a husband, fell on this town like a thunderelap, and it is the topic most discussed at this time. The statement of the church organ that no one is surprised is a bit of chian deception that would discredit the most discreptiable publication in the land, to say nothing of a rewspaper that keeps at its mast's head a motto proclaiming "Truth and Justice." The fact is the people of Sait Lake City were not prepared for such a public admission, and they are wondering what the protestants hoped to prove that President Smith has not admitted. The reading of the committee amendments to the naval bill had not progressed very far, when Mr. Gorman asked for a statement in explanation of the bill from Mr. Hale, in charge of the measure.

Mr. Hale explained the bill. He classed Great Britain first, France second and the United States third in naval strength, saying the popular impression that Germany outranked this country was fallacious. Mr. Hale ac-ceded to a proposition by Mr. Perkins that in effectiveness of appliances the United States stood next to Great Brit-ain. This was due to the fact that we had been able to take advantage of the mistakes of European powers.

JAPAN SMALLEST NAVAL POWER. Mr. Hale said that Japan was the smallest of the naval powers with the exception of Austria, but had an ad-vantage in being only a few hundred miles of the farthest naval operations in which she might become involved.
"In our navy," said Mr. Hale, "there is talk of putting many of our vessels, such as the Oregon, Indiana and others of the same class on the retired list."
"I hope they won't retire the Oregon,"
said Mr. Stewart.

"Well, they ought not to," said Mr. Hale, "but she has not the stateroom facilities that meet the fancy of naval officers. She has the same number of officers. She has the same number of thirteen-inch guns and the same fighting capacity. Nothing suits navy officers except the largest battleships."

He expressed the opinion that the present war in the Orient would show that other vessels are more valuable than large battleships, but admitted

than large battleships, but admitted that no definite conclusions could be drawn until the smoke lifted. Mr. Hale said he had no censure for

the officers of the American navy, the naval officer is the naval pure and simple and the American navy bounds his complete horizon. To him the navy is right, and the naval him the navy is right, and the naval board has run too much in the direction of enormous ships." The naval board programme contemplated forty-eight battleships and twenty-four armored cruisers, and when that stage was reached an appropriation of \$200,000,000 a year would be necessary for the navy. He thought it probable that the appropriation required next year would be \$120,000,000. If, however, the scale should be should be kept down to the present would be increase the appropriation would be increased.

Mr. Perkins defended the officers of rate

the navy, saying they were entitled to

POWERFUL NAVY NECESSARY. Mr. Hale admitted that the American officer was a man of merit, but Con-gress had its responsibilities and should know where the money was going. "I am," he said, "not to be deterred by criticisms of want of patriotism. I want a powerful navy. It is necessary on account of the conditions. We have got seven good ships in the Philippines, for instance. It is discount. for instance. It is different from it is with Japan, who will do her fight-ing at home. In case of war we should have to spend hundreds of millions in the Philippines. But there is danger of going further than necessary." Mr. Hale admitted that the last ex-

tensive additions to the navy had been made necessary by the acquisition of the Philippines and said that he for one would like to get rid of those islands Still, so long as we have those islands we must protect them. Likewise, he said, it now would be necessary to maintain a navy sufficient to protec the Panama canal.

Mr. Lodge spoke at some length on the need of a good navy to protect our trade and uphold the Monroe doctrine. He did not believe the torpedo boat would supersede the battleship, and said that in our war with Spain the torpedo vessel had been a complete failure.

Mr. Money said that if we were to Mr. Money said that if we were to persist in our policy of subjugation we would find necessary a greater navy than the people were willing to support. Mr. Money spoke of the prowess of the Japaness and quoted a high authority as predicting that in a few months the Russian fleet would be overcome. Then would soon follow the success of the Japanese on land. They would secure Korea and probably a part of Manchurla. Next they would

go to the Philippines.

At the suggestion of Mr. Hale an appropriation of \$400,000 for the restora-tion of the frigate Constitution was in-serted. The Senate at 5:09 p. m. went into executive session and at 5:15 p. m adjourned.

## In the House.

The House today passed the District The House today passed the District of Columbia appropriation bill and then began consideration of the Indian appropriation bill. Mr. Sherman (N. Y.), chairman of the Committee on Indian Affairs, explained the provisions of the bill. He said it provided that the Dawes commission should conclude its work by July, 1905, and then terminate. Mr. Finicy (S. C.) asked Mr. Lacey of Iowa, who had defended the commis-sion, if he thought it was for the best

interest of the Indian Territory to have members of the Dawes commission in-terested in investment companies. Mr. Lacey replied that he found no

For the weakest Stomach. There's a reason.

## either, come to inquire into the matter. Rose is such a diabolical character must be is loathed and spurned by felons in their cells. Not even the most hardened criminal would look on him save with a studer. He assassinated his wife. The other is an assassin of character! The re-lationship is correlative. The Council cannot afford to adhere

The Council cannot afford to adhere to a policy such as has been employed in dealing with the claims of physicians who have been called in emergency cases to treat the city's unfortunate. It is a poor excuse to turn down such claims to say that the city's physician should have stiended the patient. That would do very well if the claim did not cover a case of emergency, but when some man is suffering and needs immediate attention the city should authorise the officers to secure professional aid, and all such services should be paid for There is a humans side to the question that ought not be overlooked. The public demands of its servants a business-like administering of its affairs, but it will not applaud acts of pursimony. Nother is it right to expect the city's physician to hold himself constantly within the emergency call. The salary that attaches to the office is not ample to secure the exclusive services of any fractions of the street. salary that attaches to the office is not ample to secure the exclusive services of any reputable physician. And the suggestion that the services of emergency physicians be paid out of the salary of the City Physician is ridiculously unfair.

Matters touching the heartstrings of men should be considered on a broader plane than dollars and dines.

And speak of city administration would it be unsenteness to call attention to the extreme liberality of the Council on some things, along with this bit of unintended stinginess? Take the authority recently given to the City Recorder to purchase something like seventeen copies of the city directory for use in the several departments of the city, for instance. The price mentioned was \$6 cach. Is there anyone who will not believe that that number of directories could have been purchased by any business house in Sait Lake City for 100 or \$40 less? Possibly not, but it is a fair guess that while the Council was turning down a just claim of a physician for relieving some sufferer, that several times that amount was frittered away Mayor Morris has discovered that he can exercise his vote power without waiting for the aid or consent of any person in town. The danger probably ites in the lack of restraint. Since his assuming the Mayorship it is very generally conceded that he is not possessed with an abundance of becoming modesty, and the veto power is likely to be overworked.

The frankness of the personnes President Processing President Processing President P cral times that amount was frittered away on an unbusiness-like directory contract. Like adversity, parsimony has its uses. But a fast and tight policy in the Health department should only be employed in the purchase of supplies. Not for a moment in the relief of the suffering.

#### EASTERN COLONISTS FLOCKING TO UTAH

The first arrivals of colonists at the result of the colonists' rates which went into effect on all railroads March 1st came is ular trains from the east on that road having been run in four sections and all leaded to the guards. Local railroad men are highly elated over this indication that the World's fair is to have no material effect on westward-bound passenger traffic. Edward Drake, general agent for the

fect on westward-bound passenger traffic. Edward Drake, general agent for the Rock Island read in this city, in commenting on the situation, said:

"The unprecentedly large sale of colonists' low-rate tickets in the East the noment they are placed on sale indicates beyond doubt that this is to be a record-breaking year for travel to the West. And a favorable feature in this connection is that these colonists' tickets are one-way tickets only, so that it is evident the great majority of the people who are setting out for his country this early in the season are coming with the idea of making homes here. Quite a proportion of them have doubtless been here before on tourists' excursions, when they have discovered localities which looked good to them, while others are coming simply on the strength of what they have read and heard concerning the Government irrigation projects, the mining and other industries which are in process of development from the Rocky mountains to the coast.

"The arrivals so far are mostly from Missouri, lowa, Nebraska and Kansas, and their destinations are prettly well divided anong Utah, Idaho, Gregon and California. When it is considered that the sale of tourists' tickets at the reduced rates will continue for two months it will be realized that the influx of new settlers to the West this season must be something enormous. The 200 or 400 persons who reached Salt Lake as a result of the first day's sale is only a starter." The Descret News says it has never been inconsistent on the question of the prerogatives of the Mayor and the Council What does the News mean by criticising the present Council for refusing to confirm the appointments of the Mayor when on the 2th day of March last it declared that it is absurd to insist that the Council should confirm the Mayor's appointees? What does the News desire to have the public understand is consistency? The attitude of the News is very like the follow who tried to convince Abraham Lincoln that "a horse-chestnut" may be "a chestnut horse." The usurpation of the rights of a Republican Mayor was a virtue in 1921. To "usurp" the rights of a Democratic Mayor in 1901 is an abomination. The News is nothing if it is consistent, and it is easy to understand, now who has been making a monkey of the

COAL GAS SCORES

We were intending to ask the News if the interference of the church organ in politics were not in truth and in fact proof positive that the second position of the protestants in the Smeot remonstrance were not well taken. But the admissions of the president have been so general that it would be a waste of paper. Anyway, the News would likely say that interference in politics is not in any sense political interference, and what's the use? The manner in which the public indorsed the suggestion that President Hewlett is good timber for the Mayoraity is very gratifying to the friends of Mr. Hewlett His earnestness and his imperitality as a presiding officer have been attracting public attention for some time, and his steadfast efforts to preserve the rights of his politicial associates in the Council has given him a warm place in the hearts of his partymen. These trying times it is fortunate to have a square man at the head of the Council.

The Republican members of the Council.

The Republican members of the Council instructed Auditor Felt to audit the payrolls as he had been doing prior to instructions from Mayor Morris and the News to do so no more. He may be compelled by the courts to do a thing he has sworn to do, his duty, but he will have to come to it, never fear.

There is no one who will object to the Mayor and the City Auditor making fools of themselves, but to do so at the expense of the poor devils who earn what they work for and who need all that they earn, is simply consciencess.

The general refusal of Sait Lake Dem-The general refusal of Sait Lake Democratis to indorse nost of the acts of Mayor Morris since in office leads to the fear that the Mayor's alleged scheme to form around himself and Councilman Fernstrom a new Democracy will be a failure. And the earnest manner in which the Herald does not sustain the Mayor persuades us to feel that the Herald has become jealous and has passed the entire outfit up to the News. Anyone can see that the Democratic newspaper is becoming painfully eitent.

"Mayor Dick tore off a piece too big for him and now he is trying to get some good friend to tell him what to do with it," is the way one of the city's wags has of tell-ing it. 6 . .

That smoke nuisance has been lost in the shuffle. Or perhaps it has gone up in thin

A well-laid plan to kidnap the Mayor was barely frustrated last night by the "Terrible Swede." It is more than proba-ble now that the Republicans will hit on another plan.

The Hearst boom is not dead. It has simply been crowded off the boards for a more animated topic. In fact President Smith's confession has paralyzed the

## NOTICE TO WATER USERS.

State Engineer's Office, Salt Lake City, Utah, Feb. 26, 1995.—Notice is hereby given that Irving M. Higley, whose postoffice address is Salt Lake City, Utah, has made application in accordance with the requirement of chapter 190 of the Session Laws of Utah, 1996, to appropriate eight-tenths (S-19ths) of a second-foot of water flowing from three cortain aprings situated in lot 2, block 45, Aen-acre Plat A. Big Field survey, Salt Lake county, Utah, which springs are tributary to the Mill creek branch of Jordan river. The water is to be diverted by means of dams and ditches into ponds at various places on sald described lot, where it will be used continuously from January 1st to December 31st, inclusive, of each year for domestic purposes and for supplying sald pends with the water necessary for the spawning and propagating of fish, and also for use in Irrigating sald described lot from April 1st to October 1st of each year. This application contemplates that water equivalent to one-eighth (1-5th) of the combined flow from the springs will be consumed and that the remaining neven-eighths (5-5ths), after having passed through the fish pends of the applicant, will be returned to the natural channel leading from said springs to Mill creek.

All protests against the granting of sald application, stating the reasons therefor, must be made in writing and flied in this office after thirty (30) days and before sixty (60) days from the date hereof.

A. F. DOREMUS, State Engineer.
